KRL KIMYA operates in the production and design of Cleaning and Maintenance Chemicals. Our firm, which closely follows the innovations and developments in the sector, subjects all its personnel to continuous training and development programs.

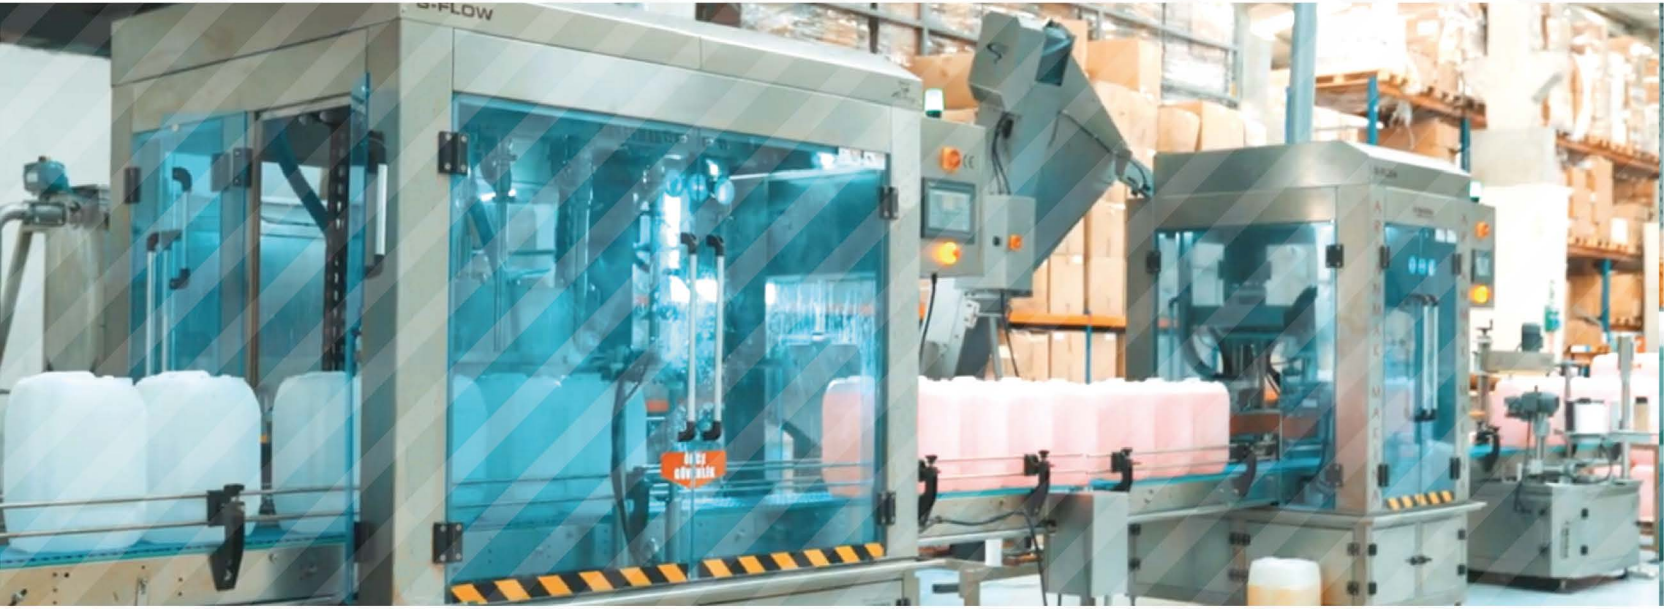

Our company, which constantly adapt itself for sector needs in the light of its experience, it carries out the production and R&D studies by considering the quality. By sharing all these experiences with our after-sales team we continue the services uninterruptedly on issues such as providing hygiene training for the personnel who apply the products and controlling the application performance.

Our factory is located in Tuzla Chemical Industrialists Organized Industrial Zone, Istanbul in Turkey that operates in a modern facility with a closed area of 2500 square meters and an open area of 1500 square meters. We provide services in our factory, which has a pure water production line that is suitable for daily production capacity, a monthly production capacity of 3000 tons, automatic raw material dosing systems, a fully automatic filling area with a monthly 500,000 packaging filling capacity and a CE certified medical device disinfectant production area.

In addition to our exports to Asia, Europe and the Middle East, we provide services to the Seven Regions within Turkey.

KRL KIMYA has been offering solutions, cleaning and maintenance chemicals with ISO 9001, ISO 18001, ISO 14001, ISO 22000 Quality Management Certificates, Halal Certificates, Biocidal Licenses and TSE (Turkish Standards Institute) certificates.

INTENDED USE AND AREA

HAND ON is used for hygienic hand disinfection. HAND ON provides the most effective and rapid disinfection of contaminated bacteria and other microorganisms on hand due to its alcohol structure. It has a softening and protective effect on the skin. It is ready to use.

USAGE

For hygienic hand disinfection, at least 3 ml of undiluted solution is applied to the hand and rub for 60 seconds until the hands are dry.

COMPOUND

Ethanol 60%, Propane-2-ol 10%, Glycerine 0.6%, Deionized water, Solvent 29.4%

PACKAGING

Supplied in 50 ml, 100 ml spray, 200 ml, 500 ml with pump, 1 lt, 1 lt with pump, 5 lt, 20 lt, 30 lt HDPE containers.

Hand Dishwash
Liquid

K1 CONC K1

Concentrated Hand Dish-Wash Detergent
(USED WITH SPECIAL DILUTING APPARATUS)

It is used for hand-dishwashing, suitable for industrial use. It provides hygiene thanks to the antiseptic agents. It is formulated to easily remove the toughest grease and dirt from the dishes. The foam is plentiful and permanent. Fragrant. It is suitable for skin pH.

- pH:** 6-7
- Packaging:** 5 kg / 1,5 kg
- Parcel:** 4x5 kg / 6x1,5 kg

K2 CONC K2

Concentrated QAC Based Cleaning and Hygiene Product
(USED WITH SPECIAL DILUTING APPARATUS)

It is a cleaning and hygiene product used in the hygiene of industrial kitchens and equipment. It can be used safely on all kinds of surfaces. Since it is a concentrated product, it is used by diluting at high rates with a SPECIAL DILUTING APPARATUS.

- pH:** 9-10
- Packaging:** 5 kg / 1,5 kg
- Parcel:** 4x5 kg / 6x1,5 kg

K3 CONC K3

Concentrated Oil and Dirt Remover for Kitchen Surfaces
(USED WITH SPECIAL DILUTING APPARATUS)

It is a highly alkaline, foamy cleaning agent developed for daily and periodic use in heavily polluted areas in the food, beverage, milk and dairy products industries. It is recommended to apply K3 to areas with stubborn burnt-on dirt such as frying pans, ovens and smokehouses. It can also be used for periodic detailed cleaning of wheelbarrows, conveyors and other heavy equipment. Since it is a concentrated product, it is used by diluting at high rates with a SPECIAL DILUTING APPARATUS. Penetrates and removes stubborn dirt. It is suitable for cleaning immersion tanks.

- pH:** 12-13
- Packaging:** 7 kg / 1,5 kg
- Parcel:** 4x7 kg / 6x1,5 kg

K4 CONC K4

Concentrated Burnt Oil and Carbon Remover
(Suitable for Cold Surfaces)(USED WITH SPECIAL DILUTING APPARATUS)

It is a highly alkaline, foamy cleaning agent developed for daily and periodic use in heavily polluted areas in the food, beverage, milk and dairy products industries. It is particularly effective in maintaining the purification process by penetrating the dirt during the cleaning of heavily carbonized/burnt and polymerized dirt residues. It is recommended to apply K4 to areas with stubborn burnt-on dirt such as frying pans, ovens and smoking rooms. Since it is a concentrated product, it is used by diluting at high rates with a SPECIAL DILUTING APPARATUS. It can also be used for periodic detailed cleaning of wheelbarrows, conveyors and other heavy equipment. Penetrates and removes stubborn burnt dirt. It is suitable for cleaning immersion tanks.

- pH:** 12-13
- Packaging:** 7 kg / 1,5 kg
- Parcel:** 4x7 kg / 6x1,5 kg

K5 CONC K5

Oil and Dirt Remover with Concentrated Chlorine

It is suitable for daily cleaning of application areas where a combination of protein and oily soils is concentrated, such as food businesses, meat and poultry slaughterhouses, fish industry, and in the food, beverage and dairy industries. Since it is a concentrated product, it is used by diluting at high rates with a SPECIAL DILUTING APPARATUS. It can be used to clean floors, walls, cutting/shredding tables, filling lines, conveyors and other production equipment. K5 is highly effective against a wide range of food contaminants including protein, animal and vegetable oils and blood stains. The presence of chlorine also eliminates organic and vegetable-based stains and the problem of "protein layer" formation.

- pH:** 12-13
- Packaging:** 6 kg / 1,5 kg
- Parcel:** 4x6 kg / 6x1,5 kg

KC 001 EQUINOX

Hygienic Hand Dish-Washing Detergent

It is used for washing dishes by hand, suitable for industrial use. With its strong formula, it easily removes grease and dirt from the dishes. The amount of surfactant is high, the foam is plentiful and permanent. Fragrant. It is suitable for skin pH.

- pH:** 6-7
- Packaging:** 20 kg / 5 kg / 1 lt
- Parcel:** 1x20 kg / 4x5 kg / 6x1 lt

KC 002 SUN (LEMON)*Concentrated Hand Washing Detergent*

It is used for hand dish-washing suitable for industrial use. It is formulated to easily remove grease and dirt from the dishes. Its foam is abundant and permanent. It is suitable for the pH of the skin. It is fragrant.

pH:	6-7
Packaging:	20 kg / 5 kg
Parcel:	1x20 kg / 4x5 kg

KC 002 SUN (APPLE)*Konsantre Elde Bulaşık Yıkama Deterjanı*

It is used for hand dish-washing suitable for industrial use. It is formulated to easily remove grease and dirt from the dishes. Its foam is abundant and permanent. It is suitable for the pH of the skin. It is fragrant.

pH:	6-7
Packaging:	20 kg / 5 kg
Parcel:	1x20 kg / 4x5 kg

KC 003 MATİK*Industrial Dishwasher Detergent*

It is used with special dosage equipment in industrial type dishwashers. Prevents calcification caused by hard water in dishwashers. Prevents the formation of water stains especially on sensitive materials such as glass and porcelain. Cleans difficult stains such as oil, starch, protein easily and quickly. Keeps soils from sticking to the cleaned surface.

pH:	12-13
Packaging:	23 kg / 5,75 kg
Parcel:	1x23 kg / 4x5,75 kg

KC 004 MATİK GOLD*Industrial Dishwasher Detergent*

For Sensitive Materials

It is used with special dosage equipment in industrial type dishwashers. Prevents calcification caused by hard water in dishwashers. Prevents the formation of water stains especially on sensitive materials such as glass and porcelain. Cleans difficult stains such as oil, starch, protein easily and quickly. Keeps soils from sticking to the cleaned surface.

pH:	12-13
Packaging:	25 kg / 12,5 kg
Parcel:	1x25 kg / 1x12,5 kg

KC 005 RINS*Industrial Dishwasher Rinsing Agent*

It is used with special dosage equipment in industrial type dishwashers. With adjusted pH, rinses the detergent residues. Keep soils from sticking to the cleaned surface. Provides fast and spotless drying of sensitive surfaces such as glass and porcelain.

pH:	2-3
Packaging:	20 kg / 5 kg
Parcel:	1x20 kg / 4x5 kg

KC 006 RINS GOLD*Industrial Dishwasher Rinsing Agent*

For Glass

It is used with special dosage equipment in industrial type dishwashers. With adjusted pH, rinses the detergent residues. Keep soils from sticking to the cleaned surface. Provides fast and spotless drying of sensitive surfaces such as glass, porcelain aluminum and copper.

pH:	2-3
Packaging:	20 kg / 5 kg
Parcel:	1x20 kg / 1x10 kg

KC 031 SOLID

Solid System Dishwashing Agent

It is a solid concentrated dishwashing product developed for solid system dishwashers. It uses with automatic dosing system. It easily removes tough grease and dirt from the dishes. It is suitable for use with all kinds of water up to 300 F water hardness. Not suitable for washing soft metal materials.

- pH:** 12-13
- Packaging:** 3,6 kg
- Parcel:** 4x3,6 kg

KC 032 MATIK SENSITIVE

*Dishwasher Detergent for Delicate Materials
Suitable for Aluminum and Copper Metals*

It is used with special dosing equipment in industrial type dishwashers. It prevents calcification caused by hard water in dishwashers. It has been developed especially for use in sensitive materials such as aluminum and copper. Easily cleans difficult stains such as oil, starch, protein. Prevents dirt from adhering to the cleaned surface again.

- pH:** 12-13
- Packaging:** 10 kg
- Parcel:** 1x10 kg

KC 030 MATIK CHLOR

Chlorinated Industrial Dishwasher Detergent

It is used with special dosage equipment in industrial type dishwashers. Prevents calcification caused by hard water in dishwashers. Prevents the formation of water stains especially on sensitive materials such as glass and porcelain. With active chlorine containing it cleans difficult stains such as oil, starch, protein easily and quickly. Prevents it from sticking to the cleaned surface.

- pH:** 12-13
- Packaging:** 11,5 kg
- Parcel:** 1x11,5 kg

KC 010 ANTILIME

Industrial Dishwasher Descaler

It is used to remove the lime scale that causes energy loss and shortens the life of the machines. Eliminates lime in regular use. Delivers washing quality by removing the blockages in the resistances, pipeline and spray tips since the equipment works more efficiently.

- pH:** 0-1
- Packaging:** 20 kg / 5 kg
- Parcel:** 1x20 kg / 4x5 kg

KC 033 LIME OUT

*Lime & Scale Removing Powder
Suitable for Tea Makers & Ben-marie*

It can be used in Kettle, Tea maker and Ben-maries. A powder product specially formulated to dissolve the accumulated lime and sediment layers. While it dissolves the limes easily, delivers an eye-catching shine. Delays the re-accumulation of lime and ground in regular use. Does not cause any damage to your machine.

- pH:** 1-2
- Packaging:** 1 kg
- Parcel:** 9x1 kg

KC 012A PREMIER ACTION

Pre-dipping Stain Remover

Formulated for stubborn dirt that is not able to be cleaned during washing. Easily cleans stains such as dried starch, protein, oil. Chlorine content provides hygiene effective on tea and coffee stains. It is also used in industrial dishwashers with special dosage equipment.

- pH:** 12-13
- Packaging:** 23 kg / 5,75 kg
- Parcel:** 1x23 kg / 4x5,75 kg

KC 012 PREMIER*Pre-dipping Stain Remover*

It is formulated for stubborn dirt that is not able to be cleaned during washing. Easily cleans stains such as dried-on starch, protein and oil. It provides hygiene with chlorine it contains. Especially effective on tea and coffee stains. It is also used in industrial dishwashers with special dosing equipment.

pH:	12-13
Packaging:	20 kg / 5 kg
Parcel:	1x20 kg / 4x5 kg

KC 012P PREMIER POWDER*Powder Pre-dipping Agent for Starch & Protein Stains*

Shows superior performance in cleaning heavy dried-on stains that cannot be easily removed. Safely use on porcelain dishes such as glasses, tea cups, coffee mugs and plates. Strong oxygen bleaches that dissolves heavy dried-on oil and food and provides hygiene. It is effective in removing tannin stains such as tea, coffee, fruit juice. Alternative product for chlorine based Pre-dipping products.

pH:	12-13
Packaging:	10 kg / 1 kg
Parcel:	1x10 kg / 9x1 kg

KC 009 IRIS*Gel Dishwasher Detergent*

Used in dishwashers and achieves the perfect shine and cleanliness you desire without polishing, with its fast-dissolving gel formula. Protects your glasswares as well as protects your dishwares against damage caused by powder detergents. Does not scratch. Shines your glasses.

pH:	8-9
Packaging:	1 lt
Parcel:	6x1 lt

KC 011 HUNTER POWDER*Dirt & Stain Removing Auxiliary Washing Agent for Dishwashers*

It is effective in removing dried-on tea, coffee, fruit juice, lipstick and tannin stains. Polishes metal equipment and effectively removes protein stains.

pH:	12-13
Packaging:	1 kg
Parcel:	9x1 kg

KC 026 SCAN POWER*Porcelain Metal Scratch Remover*

It removes cutlery scratches that are formed over time on the surface of porcelain plates unable to be removed with standard washing and bleaching agents by dipping method. For industrial use. Does not damage the polish and glaze layer on porcelain.

pH:	0-1
Packaging:	5 kg
Parcel:	4x5 kg

KC 034B GRILL SOFT*Alkaline-Free Oil Remover*

Suitable for Aluminum and Soft Metals and Glass Built-ins

It is a ready-to-use, safe degreaser for aluminum in the cleaning of oil and carbonized dirt formed in kitchen equipment such as grills, ovens, hobs, pans and inside of dishwashers. It is effective for daily use in cleaning of oil and dirt in the food production facility. Quickly degreases oily dirt.

pH:	12-13
Packaging:	5 kg / 1 lt
Parcel:	4x5 kg / 6x1 lt

KC 016 GRILL COLD

Cold Surface Oil and Carbon Remover

Easily cleans heavy oils from kitchen equipment such as hobs, ovens, grills, fryers and hoods without the need for heating. Thanks to its dense and permanent foam, it easily clings to vertical surfaces and removes oil in a short time. Thanks to its special formula, it does not require rubbing or scraping; It saves time and labor.

pH:	13-14
Packaging:	20 kg / 5 kg / 1 lt
Parcel:	1x20 kg / 4x5 kg / 6x1 lt

KC 017 GRILL HEAVY

Hot Surface Oil and Carbon Remover

It is a foamy liquid used for cleaning heavy and carbonized oils. It easily cleans heavy oils in kitchen equipment such as stove, grill, oven, grill, deep fryer. Effective results on hot surfaces.

pH:	13-14
Packaging:	20 kg / 5 kg / 1 lt
Parcel:	1x20 kg / 4x5 kg / 6x1 lt

KC 035 GRILL OFF

Alkaline Neutralization Fluid

A special product developed to remove the residues of alkaline oil remover after cleaning the oil and carbonized dirt in kitchen equipment such as grills, ovens, stoves, pans and the inside of dishwashers. Rinsing is very important especially in the cleaning of daily oil and dirt in the food production facility. Provides ease of rinsing. Shines the applied surface.

pH:	1-2
Packaging:	1 lt
Parcel:	6x1 lt

KC 014 WEAY

Heavy Dirt and Oil Remover

Suitable for Immersion

Formulated for cleaning of the carbonized oils formed in kitchen equipment by dipping method. Easily cleans the carbonized oil formed in the baking trays and frying pans. Not suitable for aluminum surfaces.

pH:	13-14
Packaging:	20 kg / 5 kg
Parcel:	1x20 kg / 4x5 kg

KC 015 GRILL

Foamy Burnt Oil and Dirt Remover

Foamy liquid used for cleaning heavy and carbonized oils. Easily cleans heavy oils in kitchen equipment such as stove, grill, oven, grill, deep fryer. Effective results on hot surfaces.

pH:	12-13
Packaging:	20 kg / 5 kg
Parcel:	1x20 kg / 4x5 kg

KC 014P WEAY POWDER

Powder Oil and Dirt Remover Suitable for Dipping

Used to remove oil and dirt from the surfaces. It has a superior effect in the purification of all oily materials. It has superior cleaning feature by dissolving in hot water. It is applied by spraying.

pH:	12-13
Packaging:	10 kg / 1 kg
Parcel:	1x10 kg / 9x1 kg

KC 018 EQU**Oil and Dirt Remover Foamy Liquid**

It is a foamy product used to remove heavy oil and dirt. It is effective in cleaning the daily oil and dirt in the food production facility. Gives effective results in cleaning the oil and dirt formed on floors, work benches, hoods, meat and chicken slaughterhouses, thermoboxes and crates.

pH:	12-13
Packaging:	20 kg / 5 kg
Parcel:	1x20 kg / 4x5 kg

KC 007 MAGIC OVEN**Industrial Oven Cleaning Agent**

It is designed for use in automatic cleaning systems of ovens and daily cleaning in convection ovens. It can be applied in both hot and cold temperatures. It is a super concentrated washing product. It removes the most stubborn dirt caused by cooking, baking and grilling at once, thus saving time and labor. It is used in all automatic cleaning ovens.

pH:	12-13
Packaging:	11 kg
Parcel:	1x11 kg

KC 008 OVEN RINS**Industrial Oven Rinsing Agent**

It is designed for use in automatic cleaning systems of ovens and daily cleaning in convection ovens. It can be applied in both hot and cold temperatures. It is a super concentrated rinse product. It is used in all automatic cleaning ovens.

pH:	2-3
Packaging:	10 kg
Parcel:	1x10 kg

CERAMICA

CERAMIC & GLASS COOKTOP CLEANER

It has been specially developed to clean your ceramic and glass hobs. With strong and special content it easily cleans stains, creates a protective layer on the surface and provides eye-catching shine. Do not scratch on the surfaces, cleans with extra care! It is your biggest assistant in the kitchen, easily cleaning the stains, burnt on and baked on food and oil on delicate, difficult surfaces. It is not used on Teflon surfaces, embossing and patterns.

pH:	2-3
Packaging:	400 ml
Parcel:	6x400 ml

KC 023 BRIGHT

Metal Surface Cleaning and Care Cream

It is used for cleaning and maintenance of external surfaces of all kinds of stainless steel equipment. It removes oil, dirt and rust residues without scratching metal surfaces. The film layer formed on the surfaces protects and rejuvenates the shine of metals, delays contamination.

pH:	3-4
Packaging:	400 ml
Parcel:	6x400 ml

KC 024 INOX SHINE

Stainless Surface Polisher

It is used for cleaning and maintenance of stainless steel surfaces. It forms a layer on metal surfaces that provides shine and delays re-contamination.

pH:	7-8
Packaging:	5 lt / 1lt
Parcel:	2x5 lt / 6x1 lt

KC 041 INOX CLEAN

Stainless Surface Cleaner and Polisher

It is used for cleaning and maintenance of stainless steel surfaces. It forms a layer on metal surfaces that provides shine and delays re-contamination.

pH:	7-8
Packaging:	5 lt / 1lt
Parcel:	2x5 lt / 6x1 lt

AR 012 A990 INOX SHINE

Stainless Metal Cleaner and Polisher Aerosol

It is used for cleaning and maintenance of stainless steel surfaces. The aerosol form provides ease of use. It creates a layer on metal surfaces that provides shine and delays recontamination.

pH:	7-8
Packaging:	500 ml
Parcel:	12x500 ml

KC 025 PIPE ON

*Manhole and Drain Opening Liquid
(Use with Cold Water)*

It easily opens sinks and drains clogged with oil, dirt, textile and paper waste. It is poured enough into the clogged sinks and drains and rinsed with cold water.

pH:	0-1
Packaging:	9 kg / 1,8 kg
Parcel:	4x9kg / 6x1,8 kg

KC 039 DRAIN

*Manhole and Drain Opening Liquid
(Use with Hot Water)*

It easily opens clogged sinks and drains with oil, dirt, textile and paper waste. It is poured into clogged sinks and drains and rinsed with hot water.

pH:	0-1
Packaging:	7 kg / 1,4 kg
Parcel:	4x7 kg / 6x1,4 kg

KC 013 FOOD*Vegetable, Fruit Cleaning and Hygiene Product*

It is a chlorine-based product used in pre-process hygiene of vegetables and fruits in food production facilities. It does not cause color, odor and taste changes in foodstuffs. It is used with special dosing equipment due to its high concentration.

pH:	12-13
Packaging:	5 kg / 1 lt
Parcel:	2x5 kg / 6x1 lt

KC 019 MICRO*QAC Based Hygiene and Cleaning Product*

It is suitable for cleaning bathrooms, toilets and showers as in hospitals and schools that require hygiene. It provides effective hygiene with quaternary ammonium content. It gives successful results in swap tests even at very high dilution ratios (1%). Requires rinsing. In food production facilities it provides hygiene and one-step cleaning. It can be used on any surface that foodstuffs come into contact with.

pH:	9-10
Packaging:	20 kg / 5 kg
Parcel:	1x20 kg / 2x5 kg

KC 020 MICRO FF*Chlorine-Based Foaming Hygienic Cleaner*

It is used in the cleaning and hygiene of heavy oil and dirt formed in food enterprises, meat and chicken slaughterhouses. Due to its abundant foam, it easily removes oil and dirt by clinging to vertical surfaces. It eliminates mold and fungus, delays their re-formation and it prevents bad odors. It is recommended to use with special foaming equipment. It is also effective in dipping, wiping and brushing methods. Requires rinsing.

pH:	12-13
Packaging:	20 kg / 5 kg
Parcel:	1x20 kg / 4x5 kg

KC 021 SANITA*QAC Based Hygienic Rinsing Agent*

It is a rinsing product used for the hygiene of food facilities and equipment. It can be used safely on all kinds of surfaces. Since it is a concentrated product, it is applied by diluting at high rates. Does not require rinsing. It is suitable for mop applications.

pH:	7-8
Packaging:	20 kg / 5 kg / 1 lt

Removes limescales on plastic pipes, steam rods and heaters and causing energy loss. Extends the lifespan of your machine.

Packaging: 1 lt
Parcel: 6x1 lt

KC 028 NOX MILKY
Milk System Cleaner
for Coffee Machines

Easily removes milk and protein residues, eliminates bacteria and congestions. Extends the life of your machine.

Packaging: 1 lt
Parcel: 6x1 lt

FH 01 OXO**Chlorine Based, Foaming, Alkaline Hygienic Cleaner**

- With Halal Certification

It is suitable for daily cleaning of application areas where a combination of protein and oily soils is concentrated, such as food businesses, meat and poultry slaughterhouses, fish industry, and in the food, beverage and dairy industries. It can be used to clean floors, walls, cutting/shredding tables, filling lines, conveyors and other production equipment. It is highly active against a wide range of food contaminants including protein, animal and vegetable oils and blood. The presence of chlorine also eliminates the removal of organic and vegetable-based stains and the problem of "protein layer" formation. It is effective in removing dense fats and proteins, it is suitable for use in hard water.

pH:	12-13
Packaging:	20 L (24,2 kg)
Parcel:	1x24,2 kg

**FH 02 FIZZY****Chlorine-based, Liquid, Alkaline, Foamy Hygienic Cleaner**

- With Halal Certification

It is suitable for daily cleaning of application areas where a combination of protein and oily dirt is concentrated, such as food enterprises, meat and poultry slaughterhouses, fish industry, and in the food, canning, wine production, carbonated beverage production and dairy industries. It can be used to clean floors, walls, cutting/shredding tables, filling lines, conveyors and other production equipment. It is highly effective against a wide range of food contaminants including protein, animal and vegetable oils and blood. The presence of chlorine also eliminates the removal of organic and vegetable-based stains and the problem of "protein layer" formation. It is effective in removing dense fats and proteins.

pH:	12-13
Packaging:	20 L (23 kg)
Parcel:	1x23 kg

**FH 03 CLEANPLUS****Foaming Cleaner with Caustic for Carbonized/ Burnt Oil**

- With Halal Certification

It is a highly caustic, foamy alkaline cleaning agent developed for daily and periodic use in heavily polluted areas in the food, beverage, milk and dairy products industries. It is particularly effective in maintaining the purification process by penetrating the dirt well during the cleaning of heavily carbonized/burned and polymerized dirt residues. Recommended for areas with stubborn burnt dirt such as frying pans, ovens and smokehouses. It can also be used for periodic detailed cleaning of wheelbarrows, conveyors and other heavy equipment. Penetrates and removes stubborn burnt dirt. It is also suitable for cleaning immersion tanks.

pH:	12-13
Packaging:	20 L (28,4 kg)
Parcel:	1x28,4 kg

**FH 04 ASIFOAM****Acidic, Foaming Cleaner - Lime Remover**

- With Halal Certification

It is an acidic, foamy cleaner designed for daily and periodic application in the food, beverage and dairy industries. It is specially formulated to eliminate calcification caused by water hardness in food processing equipment and facilities. It is also effective for the breakdown of protein residues in the fishing industry in daily use. It is recommended for periodic cleaning and descaling of equipment in high temperature use such as cookware, as well as exterior parts of filling equipment, storage tanks, conveyors. It is suitable for use on aluminum. Foam application prolongs contact time on vertical surfaces.

pH:	1-2
Packaging:	25,8 kg
Parcel:	1x25,8 kg

**FH 05 CLEANEQ****Yumuşak Metaller Uyumlu Klorlu ve Silikatlı Temizleyici**

- Halal Belgeli

It is a low foaming, soft metal safe, alkaline, chlorinated detergent prepared for use in CIP and spray applications. Low foaming, chlorinated and silicate detergent disinfectant suitable for soft metals.

- Effective in CIP and spray cleaning and sanitation applications
- Safe on soft metals
- Low foaming, chlorinated, alkaline, silicate detergent

pH:	12-13
Packaging:	24,2 kg
Parcel:	1x24,2 kg

**FH 06 ALKACIP****Alkaline CIP Cleaner**

- With Halal Certification

It is used with the CIP system to clean the dirt and oil of the closed system production lines and the inner parts of the tanks in food production enterprises, especially beverages. It is suitable for use under high pressure and turbulence conditions in low foaming and CIP applications. It is quite economical in usage concentrations. It is suitable for use with automatic dosing control equipments.

pH:	12-13
Packaging:	25,8 kg
Parcel:	1x25,8 kg

FH 07 ASICIP

Heavy Duty, Acidic CIP, Descaler

- With Halal Certification

A low foaming, highly active, acidic descaler for use in a wide variety of CIP applications in the food and beverage industry. It is highly effective in removing inorganic deposits including calcium oxalate. It is suitable for use under high pressure and turbulence conditions in low foaming and CIP applications. It is a conductive liquid detergent and suitable for use with automatic dosing control equipments.

	LC 007	LORA ACTION	HEAVY DIRT AND STAIN REMOVER ALKALINE BOOSTER	2 kg / 5 gr	13-14	Used with a dosage pump or poured directly onto the fabric and washed after waiting for approximately 30 minutes.
	LC 008	LORA SOL	TEXTILE DEGREASER	2 kg / 8 gr	7-8	It is used for cleaning heavy oil, dirt and thin clothes in restaurants, hotels and factories. It is used with a special dosing pump.
	LC 006	LORA NOTR	NEUTRALIZING AUXILIARY WASHING AGENT	1 kg / 3 gr	1-2	Used with a special dosing pump. Applied if using LORA ACTION.
SOFTENERS	LC 009	LORA LILY	LAUNDRY SOFTENER SUPER EXTRA PERFUMED	1 kg / 4-6 gr	4-5	Add LORA LILY softener to the final rinse cycle. It is recommended to use at 4-6 gr/kg. Used with a special dosing pump.
	LC 010	LORA SOFT	LAUNDRY SOFTENER EXTRA PERFUMED	1 kg / 4-6 gr	4-5	Add LORA SOFT softener to the final rinse cycle. It is recommended to use at 4-6 gr/kg. Used with a special dosing pump.
	LC 010	LORA YUMMY	LAUNDRY SOFTENER PERFUMED	1 kg / 4-6 gr	4-5	Add LORA YUMMY softener to the final rinse cycle. It is recommended to use at 4-6 gr/kg. Used with a special dosing pump.

PL 001 56% GRANULAR CHLORINE

- * Contains 56-60% active chlorine.
- * With stabilizer.
- * It is in granular structure. It dissolves easily.
- * Suitable for shock and normal chlorination.

50 Kg**PL 002 90% GRANULAR CHLORINE**

- * Contains 90% active chlorine.
- * With stabilizer.
- * It is in granular structure. It dissolves easily.
- * Suitable for shock and normal chlorination.
- * It is more economical for daily use.

50 Kg**PL 003 90% TABLET CHLORINE**

- * Contains 90% active chlorine.
- * With stabilizer.
- * It is in the form of tablets of 200 grams.
- * It is suitable for use with a special dosing pump.

50 Kg**PL 004 CHLORINE-FREE DISINFECTANT**

- * It is an odorless, slightly yellowish liquid.
- * The disinfectant feature of hydrogen peroxide is strengthened with colloidal silver.
- * With stabilizer.

20 kg**PL 005 ALGAE INHIBITOR**

Biocidal Certified

- * Concentrated algae and bacteria remover, containing Quarter Ammonium compound in cationic structure.
- * It is an effective liquid chemical that works in harmony with chlorine in pool waters.
- * Prevents the build-ups of algae and bacteria
- * Suitable for use before pool water filtration system. Dozaj pompası aracılığı ile uygulanır.

30 kg**PL 006 POOL SHINER**

- * It has the feature of clearing the pool water by dissolving the suspended solids.
- * It prevents sedimentation at the bottom of the pool.

30 kg

PL 007 PH REDUCER LIQUID

- * It is a pH decreasing acid.
- * It is in liquid form.

30 Kg**PL 008 PH BOOSTER LIQUID**

- * It is inorganic and basic.
- * It is in liquid form.

30 Kg**PL 009 LIQUID FLOCCULANT**

- * It dissolves easily in water.
- * It can be used in low doses.
- * It is not harmful to health thanks to its structural feature.
- * Since it does not contain sulfates, it does not harm the pool installation and joint fillings.
- * The most suitable pH range is 6.5-9.5.

30 Kg**PL 010 65% CALCIUM HYPOCHLORITE**

- * It is a product used to sanitize swimming pools and disinfect drinking water.
- * It is a white, granular, chlorine-based product.
- * It can be used as granules dissolved in the balance tank or as a solution with dosing equipment.

40 kg**PL 012 15% LIQUID CHLORINE**

- * It is a chlorine-based product.
- * Liquid chlorine containing 15% active chlorine prepared for automatic dosing units.
- * Includes stabilizer.
- * It is used as a disinfectant for pool water cleaning at indoor and outdoor swimming pools.

35 kg**PL 013 ALGAE INHIBITOR**

- * It is an effective liquid chemical that works in harmony with chlorine in pool waters, prevents the build-up of algae and removes the formed algae.
- * Suitable for use before pool water filtration system is activated. It is applied via a dosing pump.
- * It is a QAC based product.

30 kg

PL 014 PH REDUCER POWDER

- * It is a pH decreasing acid.
- * It is in powder form.

25 Kg

PL 017 PH BOOSTER POWDER

- * It is inorganic and basic.
- * It is in powder form.

25 Kg

PL 018 FILTER CLEANER POWDER

- * It is a product used as a cleaning chemical in swimming pool filters and pool surfaces.

25 kg
